Section 2

Local Area 911 Implementation

List all individual local areas covered by this report (e.g., Lee County, Virginia):

Wagoner County, Oklahoma (we serve 32 customers in the far northeastern corner of the county)

| |
|--|
| <p>(a) For each area listed above, identify the emergency response point to which 911 calls will be routed.</p> <p>No countywide answering point exists. The Governor's office has been notified that no local response point has been identified and we are awaiting the designation of a local response point from the Governor's office.</p> <p>Customers in Wagoner County that call 911 are currently routed to the Wagoner County Sheriff's office.</p> |
| <p>(b) For each area listed above, provide details of the carrier's progress in completing translation and other work necessary to route 911 calls to the identified emergency response point.</p> <p>Wagoner County was primarily a GTE service area, two years ago Valor purchased those GTE exchanges. Valor picked up GTE's project to create a E911 database for the county. We are unsure of the final due date, however are aware that a PSAP and E911 network and database are in the final planning stages.</p> <p>In the interim, we have been routing Wagoner County 911 calls to the Wagoner County Sheriff.</p> |
| <p>(c) For each area listed above, provide the date or projected date that transition to the 911 abbreviated dialing code will be completed.</p> <p>911 translation is already in effect, the Governor's office should soon communicate any changes in designated answering point.</p> <p>We are unsure of Valor's implementation date for a PSAP, E911 database and network.</p> |
| <p>Section 3 911 Implementation Problems</p> |
| <p>(a) Describe any problems the reporting carrier has encountered in identifying 911 number call routing points. Describe any other operational problems carrier has experienced during the initial transition stages.</p> <p>None</p> |
| <p>(b) Where the reporting carrier has experienced 911 implementation problems, describe any efforts the carrier has made to coordinate with public safety agencies and state and local authorities.</p> <p>In the past, we attended GTE's E911 planning meetings. The Oklahoma Telephone Association is assisting in coordinating with the Governor's Office to see completion of Universal 911 dialing by the due date and they are informing us of their findings as to the appropriate 911 answering point and contacts.</p> |

Section 4

Certification - To be signed by an authorized representative of the reporting entity

- ☐ I certify that I am an authorized representative of the above-named reporting entity, that I have examined the foregoing report and to the best of my knowledge, information and belief, all statements of fact contained in this form are true and accurate statements of the affairs of the above-named company.
- ☐ I certify that I am an authorized representative of the above-named reporting entity, that I have examined the foregoing report and to the best of my knowledge, information and belief, all statements of fact contained in this form are true and that the reporting entity has completed the steps necessary to properly route 911 emergency calls in the localities covered by the report as of March 5, 2002.
